

At Walmley Junior School, we understand the importance of Physical Education and we aim to give children lots of sporting opportunities throughout their school life.

Our curriculum aims to ensure children are able to work as part of a team, show great sportsmanship, have positive attitudes and be resilient when faced with challenges.

Some of the things we learn about in P.E

- How to work as part of a team.
- The importance of showing good sportsmanship within a competitive game.
- Flexibility, strength, technique, control and balance through athletics and gymnastics.
- How to perform dances using a range of movement patterns.
- How to defend and attack to gain possession of the ball and get into positions to shoot or score.
- How to evaluate performances.

Walmley Wimbledon is our annual tennis competition that takes place in the Summer Term.

Each term, children at Walmley Juniors take part in our inter-house competitions. There are three competitions each year (Dodgeball, Football and Rounders) and the winning house is awarded a trophy.
