

# RELIGIOUS EDUCATION

Religious Education is highly valued at Walmley Junior School because we want our children to encounter a range of cultures and traditions and thus have the knowledge, skills and understanding needed to live, work and flourish in a global society.

Our aim is to **learn from** faith and to **learn about** religious traditions.

tolerance

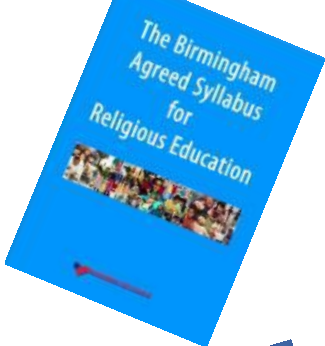

combat prejudice

empathy

We are proud of our visits to places of worship.

respect

understanding of others

We want to equip our children with a tolerance, empathy, respect and understanding of others, particularly those whose faiths and beliefs are different from their own, and, in so doing, to combat prejudice and create a more harmonious and enriched society.
