Dear Parents/Carers,

Re: Summer Term Parents' Evening

This term, parents' evening will be held on Monday 17th July and will take the form of a learning review.

You will be given a 20 minute slot and we would like you to attend with your child so they can share their achievements with you. Your child will: show you the work he/she is most proud of, identify the things they have most improved, show you some of their work which demonstrates progress and tell you the ways in which they can improve. You will also have the opportunity to see the work on the classroom walls and around school.

Parents and children will arrive in groups of no more than five for each session and will be allocated their own space within the classroom. Class teachers will be there to talk through issues, but any major concerns will need to be addressed at a separate time as there will be less opportunity for privacy on the night.

We hope that this will be a successful evening and that you will enjoy finding out how much your children have learned.

Yours sincerely,

Mr. S. Pearson
Headteacher
